

Healing the Broken Circle

Online Training!

Shamanic Approaches to Healing Addictions Training Program

“When the Sacred Circle of Life is broken it causes the fire within to burn out of control or dulls it. Either way it causes a person to reach outside of themselves to fix the inner pain and problems. Generationally, these breaks are passed on and on. If one person heals what has been broken they are the torch bearers of healing to their family and community.”

This training program is for practitioners who desire to work with people who have unhealthy habits, addictions or dependencies that interfere with their ability to have a balanced wholesome life. In order to work with others with these challenges there is also a journey within that must be undertaken to heal these same challenges.
